Copyright A© 2021 Infospace Holdings, LLC, a System1 Company Company Company Correct answer: OK, now that you’ve finished shouting your head about the release of Harry Potter and the cursed child, you’re probably wondering: when was Delphi born? Spoiler, come on! If you’re completely blown away by the existence of (CASSP) Voldemort and the secret daughter of Bellatrix, then trust me, Potterhead’s companion, you’re far away alone. What seemed like a distant idea for a flamingo you once had in high school became a reality when this script hit us with the Twist plot to end all twists – but really, when you look at the timeline, it’s not necessarily as good as you’d think. In fact, Delphi’s existence fits into the narrative so well that it’s actually kind of creepy. Did J.K. Rowling Lavala plan from the start? First of all, she’s not surprised. If Voldemort had a daughter, Bellatrix would have been the mother. The narrative often regained for Bellatrix’s romantic cult of him, as she speaks to him as a “lover”. I think I think The most surprising thing for the fans is that Voldemort entertained relationships that led to the birth of a child à € “Dumbledore often remembered Harry the incapacity of Voldemort to love, and Voldemort has never hit readers as a character interested in Percases other than accumulating power and commit a mass genocide. I would never have imagined it as someone who would like an heir, so obsessed by the immortality and from power not to be able to think about his progeny as to something more than a competition. Weigh delphie, who «surprises! À However, it was born. We all know that Bellatrix gave a cut, courtesy of Molly Weasley, at the end of Harry Potter and the gifts of death. It was not released by Azkaban until Harry Potter and the Order of the Phoenix, which gives Delphie about two years of time to conceive. Except where Delphi’s story becomes a little disturbing: Redditor sappy6977 really understood More than a year ago when Delphi was born. Before we were completely sure of the existence of a delphi character. Read their disturbing forecast below: Have you ever noticed how Bellatrix LeStrange doesn’t cease when Snape kills Dumbledore on the tower (in the book, anyway)? Why does the most dangerous Lieutenant of Voldemort and Draco aunt should not be there? At the beginning of HBP, Bellatrix says something strange: À «If you had children, I would be happy to abandon them at the service of the Dark Lord!” Notice as he said À «Son It is said that Bellatrix spoke to Voldemort as a lover for three times and that his death is the only time Voldemort is upset for someone’s death. My theory is that Bellatrix was pregnant to the beginning HBP when they saw Snape with the son of Voldemort. She thinks of the future and says children instead of children because she already has one coming. She has disappeared from battle because she is going to give birth to Voldemort’s son. You change the way you talk to him after Ootp and Rowling also tells us how she. And this is why Voldemort insists that Bellatrix gets rid of Nymphadora and holds her family tree. So, I think the damn child is Bellatrix’s son with Voldemort. And that the plot will be if a child was born badly due to parents or if the child has the chance to be good despite everything. The only thing that the user has wrong is that Delphi ended up being a Girl, which somehow makes the line À «If you had children." More obscurely threatening. The s Shivering, you guys.in any case, if it is not clear on the timeline, this should clarify for you. However, some questions remain: why was she grew up by rowles? Did they know the true origins of her? Because Albus and Scorpius were so cold to interfere with the stream with a strange 23 year old girl ?? Perhaps we will find out in the sequel sequel, a Tell-All called Delphi Does Azkaban.harry Potter and the damn child, Amazonimmagini: Manuel Harlan photographer / courtesy of Harry Potter the game; Giphy we were all so busy reeling from the AFERMATH OF THE ~ EIGHTH HARRY POTTER BOOK ~ That is not until now that most of us started asking us: Where is Teddy Lupin to Harry Potter and the damn child? (ATTENTION: Spoiler forward!) While the son of Nymphadora Tonks and Remus Lupine (and Godson at no less than Harry Potter) was briefly highlighted in the epilogue flirting with Victoire Weasley, was remarkably absent from the recreation of that scene in the opening of the game, and he never returned to the fiction. And yes, he totally the sense that Teddy would not have been included in history, which focuses mainly on his good young God (?). But, oh, my sad heart of fangirl wanted so bad to see the lupine Teddy, all raised with the Sass of Tonks and that Remus Gint in him’s eyes that changes color. AhimÀ , it wasn’t thought about to be À € à. – “but at least we can use this opportunity to do what we do better, and basically FIG a life for him based on bare bones facts that we know. So, if you are six a human being who has failed to see the roll of cinnamon punk toddy lupin in the damn child, buckle! Here’s what the teddy was probably, based on what we know about him. The moment starts the game, Teddy is 19 years old (for Anyone who keeps track, about the same age of Delphi). It is a year out of Hogwarts and dates back to Victoire Weasley, daughter of Fleur Delacour and Bill Weasley. Pottermore supply stories, it is likely that the two have been dating back for at least Three years, since the game opens in 2017 and flirted flirting on a storm in a Quidditch match in 2014 (thanks, Rita Skeeter). As his mother, he was ordered in the dowel house - and difference of one of his parents, he served as boy boy.fu N Done: Teddy is actually a cousin of Scorpius and Sirius, thanks to everything that brought the practical thoroughbred. He is bound to practically the whole black family and Malfoy through the mother of Tonks, Andromeda Black, which was the sister of Draco Malfoy’s mother. The damn child does not seem to imply any familiar meeting ~ on that front part, but it is a kind of considerable note that Draco is technically more related to Teddy than Harry, the godfather of him. So what exactly is Teddy until his cousin god and real cousin are moving time-space-magic Continuum? Personally I guess he takes after his metamorfago and his mother’s mother, Teddy would have been prone to trying to train like auror. After all, he has a godfather willing to show him all the strings. Seeing how he is the head boy, he probably has a more similar temperament to that of his father (who, let’s go honest, deserved to be the boy’s most of James Potter - but it’s an injustice for another day). I imagine that in the buddy-auror film of the life of him, it is the right that holds his partner reckless out of difficulty and makes the ford, sarcastic All the way it takes several years to train as Auror, is what I bet our friend Teddy was up to during the cursed baby. And for four years, during the game, he and his Bae Victoire Victoire They were together for at least seven years, no doubt she would ask him to marry him. If nothing else – because I really want, really imagine Harry who screams up the stairs to his children: “Clothes, your cousins are about to get married and we’ll be late!” Harry Potter and the damn child: Parts One & Two (Special Rehearsal Edition script), \$ 17.99, AmazonImages. Courtesy of Harry Potter The Play If you are still recovering from all the feelings you have from Harry Potter and the damn child, beat your hands! (Clap. Clap.) Seriously, boys, as a person who read everything immediately after midnight release of July 31st, I don’t think I suffered so many emotional whip strokes from the seventh book. There is no unique feeling how to try to devour an entire book by Harry Potter in a single session, and no sleep is more decisive than the immediate blow to your conscience after finally posed it. Wantly that post-potter sleep is not It is never enough to process all your emotions or all your many questions about things left to interpretation in the text. I mean, this is precisely the reason why fan fiction has had a great rebirth between the late years à €™ 90 and the beginning of the years à €™ 2000. Fans want answers, damnation, and if they don’t get them right away, they are more than happy to provide them with them. Nothing prohibits as the Harry Potter fandom, where fan fiction and destination theories on Tumblr and the fan art are still abundant as always (after all this time? However, there are some quite obvious things that there are no fair fiction in the world To appease our aggressive curiosity. Here are all the Potterheads questions still have after reading Harry Potter’s script and the damn child: Where is My Precious Baby Teddy Lupine? I’m so salty about this. Rowling did everything to create À parallel among the origins of Teddy and Harry, and everything seemed to nothing. What was Sass Queen Rose during all this nonsense? Apart from briefly non-existent, ie. Have a child so average? More at the point: how did Ron King of the Dorks, do you have a son so cool? Wait, Hermione ended up being a smart because he didn’t married Ron? ah, yes’. Why the our iconic A, heroica, independent, notoriously right, would have turned into incarnate snape ... because of a boy. (This wise of Hermione Kadeen Griffiths expert, À «Hermione deserved better in a cursed child», perfectly explains all the oddities of this.uh, because Albus and Scorpius were an object? Sincerely, really À € à.) because ©? Harry Ye À «Lolololo, don’t throw away from the train, boys, but if a dementium to suck the soul or a Slytherin petrifica and kicks you in the face, you are up on Own !” Why should Albus give a flying galloo on the cedar dyke? I understand, I understand, they’re both “the spare”. But it was really just a bad nickname for the cedar, which by all accounts was a Golden Boy and had nothing in common with Albus, so this kinship seems a little bit of a sudden to me? Why didn’t they go back and save “Gae, I don’t know” half of the children in the Battle of Hogwarts? I never bitter for Colin Creevey until my last rush on this earth. And seriously, really, someone needs to tell us à™™ is the brown lavender alive? Many moons ago his date of death was pulled by Pottermore, and have been fans floating conspiracy theories ever since. Alas, Post-Cursed Child We are as confused as ever. What the hell was Neville doing while Scorpius and Albus turn Hogwarts into their own TARDIS? Don’t tell me that the OG Hogwarts Misfit would not have gone T immediately reached these two confused little potatoes and tried to solve all their problems with the –wonders of Herboló Gy–did Voldemort know he had a daughter? Am I hiring you? But also, I struggle to reconcile the idea of Voldemort that we have in our heads with a Voldemort that would have been relaxing with the offspring. It seems he would have been too competitive to want an heir, especially after all his well-documented daddy problems.... Do we know if Voldemort really had a daughter? Theories abound that Delphi thought she was Voldemort’s daughter, and Bellatrix lied. Too bad Glodeyoy Lockhart went Bonkers, because I watched him totally host the magical version of Maury to get the true up to the truth of this evil Baby Daddy Drama.so, Astoria Greengrass died of some hereditary blood curse – could Scorpius Also? I will protect him at all costs that he can have all my blood take him take him all.Others, blood curses are a thing? Def not covered in class on “unforgivable rides” day at Dada, just say Malfoy just a professional ponytail artist? I mean, if I were as unemployed as Draco seems to be, my hair would probably be so furious, even Professor Meffessor McGonagall Shough a bunch of unicorn blood, or...? I’m just trying to figure out mathematically and emotionally how he could have taught three generations of vasters and still kicking. But hey, if the witch in the cart is semi-immortal, why isn’t she our good friend Minnie? Why did Albus choose Slytherin? It’s implicit when he yells at Harry in the first alternate timeline. “You can’t make me go to Gryfodoror!” m slyterin! “ Albus chose it for himself from the beginning. And while we can guess for a few reasons why he did it (#rebel without cause), it is never explicitly explained. Also, as the flip flap paddy wack shooibty bop doo wop is Scorpius malfoy a slyterin? I’m sorry, but that guy is Ravenpuff AF, the family tree will be damned. If Sirius broke a line of slyterrins and entered Grifondoro, how on Earth would Literal Cinnamon Roll Scorpius not end up in Ravenclaw or Tassorosso? Because I’m strange and unprecedentedDraco Malfoy?! He basically led the club “Stop Kormiomanning Bad Boy Draco Malfoy” through my teenage years, but the heart of me for the 25 years is beating in all the wrong places at this time. He’s a good father. Help... Also, why am I slightly sending Ginny and Draco? That moment when it is like “the same” king: Draco’s feeling left out the whole school, I was like, eh. But then the “Huh” never left. Think about it. They were both used as tools for Voldy against his will, they are both clearly very sensitive, both united by left out-ness ... and this version of Draco is really worthy of a woman like Ginny, if we are Accepting his self reformed as Canon. In the meantime, Harry is still a bit of a kind of benches and is not very nice with this whole co-parent thing (just saying). Who is Craig Bowker Senior?! Craig Bowker Jr. is officially the weirdest enigma in the whole franchise and Proxy, so it’s his parents. I need answers. What percentage we believe in J.K. Rowling When do you say it was officially written for this series? How, how did it end? “I’m killing your dreams of a cauders sequel.” Done? Or “I’ll do it for the next 10 years until I want to tear your bunks” done? I need exact clarification before I can start sleeping again at night, please.
